Skills used: React.js, Redux, CSS, HTML, Bootstrap, Antd

Dietech:

Dietech is a highly specialized program that was developed with the help of a committee of Dietitians, Dietetic Technicians, Certified Dietary Managers, Food Service Directors and Health Department personnel. Dietech shows an important evolution in software that has previously operated in the field of Food Service & Nutrition. It incorporates both the most recent developments in Food Service and computer technology and combines them into a powerful all-encompassing software to meet your facility's needs now and into the future.

Skills used: React.js, Node.js, Redux, CSS, SCSS, MU

BearishOS:

The Bearish OS connects & Unifies all your work in One Place. The Bearish OS connects & Unifies all your work in One Place.
